## 1

## 2 Introduction

The ILIAS-Plugin MultiAssign allows an ILIAS-User to assign another ILIAS-User to multiple Courses. This functionality can be reserved to one or more global roles. A User only can assign others to courses where he has the right for member-modifications.

## 3 Feature Overview

### PL-Version

### Changes

1.2.00	First Release: <ul style="list-style-type: none"><li>• Assign one user to several courses</li><li>• Select the Course-Role for each course</li><li>• Send a customizable summary-email to the user</li></ul>
1.3.00	Support for ILIAS 5
1.4.00	Support for ILIAS 5.1

## 4 Installation

ILIAS 4.4 does not include ActiveRecord. Therefore please install the latest Version of ActiveRecord before you install the plugin. If you are using ILIAS 5, please go to step 3.2

Start at your ILIAS root directory

```
mkdir -p Customizing/global/plugins/Libraries/  
cd Customizing/global/plugins/Libraries  
git clone https://github.com/studer-raimann/ActiveRecord.git
```

### 4.1 Install Router

The Subscription-Plugin needs a Router-Service to work. Please install the Service first:

You start in your ILIAS root directory

```
cd Services  
git clone https://github.com/studer-raimann/RouterService.git Router
```

Switch to the setup-Menu of your Installation and perform a Structure-reload in the Tab Tools. this can take a few moments. After the reload has been performed, you can install the plugin.

### 4.2 Install Plugin

Start at your ILIAS root directory

```
mkdir -p Customizing/global/plugins/Services/UIComponent/UserInterfaceHook/  
cd Customizing/global/plugins/Services/UIComponent/UserInterfaceHook/  
git clone https://github.com/studer-raimann/MultiAssign.git
```

As ILIAS administrator go to "Administration->Plugins" and install/activate the plugin.

## 5 Usage of the Plugin

### 5.1 Configure Plugin

As ILIAS administrator go to "Administration->Plugins" and click 'Configure' in the MultiAssign-Action-menu.

The screenshot shows the 'Einstellungen' (Settings) page for the MultiAssign plugin. The interface is in German. On the left, there are two main sections: 'Multi-Zuweisung-Button auf Persönlichem Schreibtisch' and 'Sammel-E-Mail versenden'. Both have checkboxes that are checked. The 'Multi-Zuweisung-Button' section has a sub-section 'Verfügbar für Rollen' (Available for roles) with a list of roles: Administrator (2), User (4), Guest (5), Anonymous (14), and StudyBranch\_3200 (332). The 'Sammel-E-Mail versenden' section has a sub-section 'Deutscher E-Mailtext' (German email text) and 'Englischer E-Mailtext' (English email text). Both email text sections contain a template for an email, with placeholders for user information and course details. The email text is as follows:

**Deutscher E-Mailtext:**

Sehr geehrte/r [USER\_FIRSTNAME] [USER\_LASTNAME] ([USER\_EMAIL])

Sie wurden in die folgenden Kurs als Admin eingeschrieben:

[LIST\_ADMIN]

Als Tutor in die Folgenden:

[LIST\_TUTOR]

Und als Member in die Folgenden:

[LIST\_MEMBER]

Beste Grüße

Admin

Platzhalter [LIST\_ALL] [LIST\_ADMIN] [LIST\_TUTOR] [LIST\_MEMBER] [USER\_FIRSTNAME] [USER\_LASTNAME] [USER\_EMAIL]

**Englischer E-Mailtext:**

Dear [USER\_FIRSTNAME] [USER\_LASTNAME] ([USER\_EMAIL])

You have been invited to the following courses as an admin:

[LIST\_ADMIN]

Als Tutor in die Folgenden:

[LIST\_TUTOR]

Und als Member in die Folgenden:

[LIST\_MEMBER]

Beste Grüße

Admin

Platzhalter [LIST\_ALL] [LIST\_ADMIN] [LIST\_TUTOR] [LIST\_MEMBER] [USER\_FIRSTNAME] [USER\_LASTNAME] [USER\_EMAIL]

At the bottom of the page, there are two buttons: 'Speichern' (Save) and 'Abbrechen' (Cancel).

## 5.2 Usage

### 5.2.1 Personal Desktop

If your User Account is in at least on of he configures Roles and the option “Multi-Assign-Button on Personal Desktop” is activated you see the new Button “Assign User” on your Personal Desktop. Click the Button to switch to the MultiAssign-Overview.
